

2021 BAUN Conference Poster Presentation

Thank you for participating in the BAUN conference. Poster presentations are an asset to the conference. Posters are displayed throughout the conference and present a lasting and anxiety-free way to communicate your project findings.

Criteria for poster presentation

- The title of poster should be clear & unambiguous;
- The content of the poster should be accurately described;
- The design of the poster should be appropriate to the content i.e. posters about research should present the results and discuss limitations and relevance to practice;
- Content should have implications for improving practice/patient care;
- Content should be succinctly explained i.e. not too wordy;
- Any results should be clearly explained and presented appropriately.

Remember

- To check the overall visual impact of your paper
- Is there appropriate use of pictures and diagrams?
- Have you remembered to use a large font i.e. 20+?
- Does your poster explain itself?

Presenting your poster

- You may only use velcro tabs to attach your poster to the board (these will be supplied)
- You will need to be available during the conference to answer any questions raised by your poster
- You may wish to leave contact details
- Feedback available on request
